

Dr. Francesco Pepe

Department of Public Health, University Federico II of Naples, Italy

PhD, Assistant Professor in Anatomic Pathology in School of Medicine, University of Naples Federico II.

His main research interest is in the field of genomic biomarkers validation and testing for predictive information in the field of lung cancer, metastatic colorectal cancer, melanoma and gastrointestinal stromal tumor.

Moreover, he has developed skills in tailoring Next Generation Assays for a number of different applications with a special focus on the simultaneously detection of clinically relevant alterations (i.e., EGFR mutations, ALK traslocation, PD-L1 expression) in the routine setting including handling of different sample types, such as tissues and/or liquid biopsy specimens.
